SmartSHOT™

Features and Benefits

- **Tapered dispenser**
 - Greater access and more precise dispensing
- **Heated dispenser minimizes cold-shots**
 - Create the optimal environment for consistent foam performance

- **Insulated handle stays cool**
 - Maximum comfort and safety for users
- **Telemetry: self-monitors system performance, tracks the usage of consumables, and automatically reorders supplies**
 - Maximum reliability
 - No more costly, unexpected downtime

- **Long lasting mixing module with tool-less replacement**
 - Maximum horsepower available (on motor) to retract purge rod from mixing chamber; minimizes downtime due to bonding of purge rod and mixing chamber
 - Zero maintenance expense, parts are included with equipment lease at no additional cost
 - Fast & easy to clean and change
 - Minimal downtime to switch out/change parts

- **Bar-coding**
 - Enables operations with diverse product lines to deliver consistent packaging protection
 - Automatic
 - Ensures products are protected with the right amount of foam and film, each and every time
- **Special mounting plate**
 - Flexible mounting options
